

BB5 Series

Standard Weight & Heavy Weight Options

The BB5 is equipped with 2 ball bearings and a steel or stainless steel base metal making it perfect for most commercial fire rated and non rated openings. It is stocked in a wide variety of finishes and has an optional NRP (non-removable pin).

Speed

Multiple size and finish options in stock and ready to ship.

Service

The BB5 series is backed by the Design Hardware Limited Lifetime Warranty and our excellent customer support.

Flexibility

Specialty options available: Stainless Steel and Marine Grade Finishes, Electrified, and Heavy Weight.

Pricing

The BB5 is competitively priced to keep your project on budget. NRP option is also available at no upcharge.
