

# E-LE TRIM ELECTRIFIED LEVER ESCUTCHEON

E-LE-08 US32D-FSE-24V

Our E-LE exit device trims for the 1000 series are perfect for stairwell conditions or applications where electric pull-back of the exit device's latch bolt is cost prohibitive or not required. This is especially practical in applications where fire/life safety codes require a "fail safe" condition which is not an option with electrified latch pullback devices. Because the current draw is quite low there is no need for a more expensive power supply to provide the surge current.

## Specification

**Application:** For use with all 1000 series exit devices (Note: Does not work with 2000 series exit devices)

**Operating Voltage:** 12 or 24VAC/DC (11V - 30V)

**Amperage:** 250mA MAX Inrush, 10mA MAX Holding

**Features:**

- Designed to work with all 1000 series exit devices
- Motor Driven lock/Unlock
- Fail Safe/Fail Secure field selectable
- Low current draw

**Warranty:** 1 year warranty
